TMMA Conference

Issues/Comments

24-25 Oct 2001

TMMA ISSUES/COMMENTS:

(Pat Nicklow/Jim Tappen – NAVSEA PEO Carriers)

- How do they do business?
- How do they request funding for deficient manuals?

(Laurel Shay/Rosa Fein – NAVSEA PEO Aircraft Carriers PMS 378)

- How does TMMA authorization process work?
  - Provide actual process as seen by NSWC, Phila?
- What is the tool that is provided when the effort is coordinated by the preparing activity?
- To what degree should PMS maintenance be included in Chapter 4 of a maintenance tech manual?
- The thought being that only minimal PMS should be included since the MRC's would and could be updated at a lesser cost.

TMMA ISSUES/COMMENTS:

(Eugene Arnold/Larry Numa – NAVSEA New Orleans)

- When does a TMMA lose control of a TM?
- Who becomes a TMMA when an activity converts a hardcopy to an electronic TM?
- Who determines the finances for TMMA to maintain TM?

(Michael Kracht – US Naval Ship Repair Facility, Yokosuka, JA)

- The key to our successful TMMP is our close working association with NSDSA Port Hueneme, particularly the use of the TDMIS database.
- We are finding that fairly often we have to contact TMMA's to resolve problems with our technical manuals.

LEGACY/CONVERSION ISSUES/COMMENTS:

(Sandra Wicks – COASTSYSTA E05L)

- Class IV and V IETMS and ATIS requirements for these IETMs.
- DON policy on electronic technical manuals.
- Embedded IETMs versus IETMs on CD-ROM for use on ATIS Work Stations.
